DETAILED ACTION

Allowable Subject Matter

Claims 1-40 are allowed over the prior art record.

1. The following is an examiner's statement of reasons for allowance:

The Board of Patent Appeals and Interferences states in the decision rendered on June 19, 2006

““With respect to independent claims 1 and 17 Appellants argue at page 4 of the brief , the prior art references do not teach a license manager which “gathers data and the usage of the licensed property ... **by reference to a plurality of licensors of the licensed property** . " We agree .To determine whether claim 1 and are obvious over the references , we must first determine the scope of the claim. Our review finds that the term a licensed property" in claim 1 and 17 limited a single software product .

We reach this conclusion because Appellants' specification uses the plural term "licensed properties" when referring plural software products. (Specification at page line 6) We also find that claim limited to the single software product having a plurality of licensors." This plural licensors/single product situation is specifically discussed in Appellants' specification at page 8 line 21, through page 9, line 1. Therefore, we will not sustain the Examiner's rejection under 35 U.S.C. 5 103.

See decision rendered by The Board of Patent Appeals and Interferences on June 19, 2006 for further details.
